EXPERIENCE

Evaluation of 3D Printed Mold Material Viability

September-June 2026

My team and I worked to evaluate the strengths and weaknesses of multiple popular 3D printing materials in regards to casting different rubber materials and deployed a website with our findings.
Personal Contributions:
- Developed the mold used for evaluation of the materials
- Printed the molds using various 3D printers models and materials
- Improved the CSS and design of the website
Technologies and Tools: HTML,Java, CSS, Python,OnShape,BambuSlicer

Gold Miner

June-September 2022/2026

I had the unique opportunity to prospect for gold this past summer and the summer of 2021.
This experience helped me develop the following skills:
- Ability to learn new technologies and techniques
- Problem solving under pressure

Cider Bartender and Store Clerk

June-September 2025

Worked with a small team to serve cider, stock shelves, sell products and provide friendly customer service to customers at Draper Girls Family Farm in Parkdale, Oregon.

EDUCATION

Oregon State University

Class of 2026

Graduated in 2026 with a B.S. in Computer Science, a bioinformatics focus and a 3.11 GPA.
